

### 2.3.1

#### EXPERIENTIAL AND PARTICIPATIVE LEARNING

The college gives adequate exposure for the students to display their talents through the Model Making Competitions held at the campus every academic year. The students create the models for the high school and higher secondary campus. Micro-Teaching and Macro-Teaching practices were done in groups by the students. Moreover, the participative learning is strengthened through incorporating the teaching concepts in Art Integrated Learning.

#### Students in group displaying their Models during Model Making Competition

**Students in Micro-Teaching Practice Sessions**

Students Practising Macro-Teaching Lessons

**Incorporating Performing Arts in Pedagogical Subjects**
