

Curriculum Framework M.Ed. - First Semester

**HISTORY AND POLITICAL ECONOMY OF EDUCATION
SEMESTER - I**

HPE

Marks: 100

Objectives:

At the end of this course the student will be able to:

- understand the need and importance of the History of Education.
- critically analyze the Policies and Commissions and its implication on the Educational system
- appreciate relationship between Education and Political System
- understand the role of Education in Economic Development
- analyse the challenges before Education due to Globalization.

Unit - I: History of the Education System in India [10 hrs]

History of Education Need and Importance – Education in Ancient, Medieval, Modern India. Constitutional provisions related to Education. Nature of the Indian Educational system – Merits and Demerits.

Unit - II: Political Ideologies and Education [10 hrs]

Education in relation to national integration and international understanding. Democracy: Meaning, Values, Main features of democratic Education, aims, curriculum methods of teaching and School administration.

Unit - III: Economics of Education. [10 hrs]

Education as investment, consumption and welfare activity. Economic demand vs social, cultural and political demand for Education. Concepts of Physical Capital, Human Capital and Human Resources and their distinctive features.

Unit - IV: Education Socialization [10 hrs]

Process of Socialization, Social stratification and Education, Social Mobility and Education. Inter - relationship between Education and Social variable, Education for women, Education and culture, Education and religion, Caste, Gender. Education for Weaker Sections and minorities Education and inequality - rural and urban differences.

Unit - V: Globalization and Education [10 hrs]

Nature of Globalization - GATS, WTO; Social, Economic, Cultural, Political. Globalisation and Challenges before Education at different levels. Development and Education - Restructuring Education at different levels due to Globalisation. Impact of Globalisation on Knowledge, Skill and attitude.

Practical Oriented Assignment:

- Trace the historical hallmarks of Indian Education till date with its salient feature. (Compulsory)

Any one of the following

- A Study on cost of Education at various levels of Education.

- Prepare a report on the major contribution of GATT & WTO.

**EDUCATION FOR KNOWLEDGE CONSTRUCTION
SEMESTER - I**

EKC

Marks: 100

Objectives:**On completion of this course the students will be able to:**

- describe the meaning and identify the different ways of knowing
- appreciate constructivist approach to knowledge construction
- understand the foundations of knowledge acquisition
- understand the methodology of organising knowledge
- examine critically the contemporary challenges that arise from vision of school education.
- discuss the issues and concerns of Support Systems of Education.

Unit - I: Education for Knowledge Construction. [10 hrs]

Knowledge: Meaning and Definition, Knowing and knowledge. Process of knowing and ways of Knowing, Forms and characteristics of Knowledge, facets of knowledge. - Process of knowledge construction: Essentials for construction of knowledge, the process of constructivism, guiding principles of constructivist learning and Education. Procedure of bridging the gap in the process of knowledge construction between Theoretical knowledge and practical knowledge. Role of the teacher in the process of Knowledge construction.

Unit - II: Foundations of Knowledge Acquisition [10 hrs]

Knowledge as an entity of Education – Epistemology as the basic theory of knowledge - Dimensions of Epistemology (Virtue, Naturalistic, Religious, Moral, Social and Feminist) - Knowledge as opinion, truth, belief and justification - Foundations of knowledge: Intuitive, Reasoning and Sense experience – Approaches: Rationalism and Empiricism – Knowledge as Forms, Models, Objects, Symbols and Imagery - Sources of knowledge: Perception, Introspection, Memory, Reason and Testimony .

Unit - III: Methods of Knowledge Organisation [10 hrs]

Knowledge analysis: knowledge by propositions, acquaintance, description – Curriculum as a repository of knowledge – Characteristics of curricular knowledge: content-oriented, learning-centered, integrated alignment of skills, abilities, activities, studies and investigation (assessment) – Curriculum as a source of knowledge creation, regulation and organisation. Implications for curriculum and practice: collaboration, and multiple interpretations and manifestations.

Unit - IV: Contemporary Challenges in Education [10 hrs]

Aims of Indian Education in the context of a democratic, secular, egalitarian and a humane society. Transformation of national aspirations into educational goals / aims of education, its linkage with curricular decisions, teaching - learning process and pedagogy for different stages of Education. Education as a system influenced by social, cultural, political, economic, and technological factors. Equity, Access and Quality in Education.

Unit - V: Support Systems of Education

[10 hrs]

Meaning, Principles and guidelines in organising the support systems .Manpower resources, financial resources and infrastructure resources , Role, involvements, issues related to control and autonomy of different agencies of state and central government, NGO's, media and technology. Support services of teacher organisations, family and local community. Learner support systems.

Practical Oriented Assignment

- Prepare a report by discussing the various ways through which you can help students to construct their knowledge. (give examples) **(Compulsory)**

Any one of following:

- Critically analyse on epistemological differences between knowledge & skill, teaching & training, Knowledge & information, Reason & belief and prepare a report.
- Discuss the implications of major shift from traditional learning approach to constructivist learning.

**INTRODUCTION TO RESEARCH IN EDUCATION
SEMESTER - I**

IRE

Marks: 100

Objectives:**At the end of course the Students will be able to:**

- describe the nature, purpose, scope, areas, and types of research in Education.
- identify the research problems and conduct a literature search for research purposes
- understand the meaning of hypotheses and formulate the hypotheses
- explain sampling and sampling strategies
- prepare the Research Proposal.
- distinguish the characteristics of qualitative and quantitative research
- construct appropriate tests and tools for Research in Education.
- statistically analyse the data collected.

Unit - I: Research in Education: Conceptual Issues**[8 hrs]**

Research: Meaning and Definition: Research as a scientific approach: Objectives of Educational Research: Scope and Need for Educational Research, Types of Research: Basic research, Applied research and Action research. Difference between Basic or Fundamental research, applied research and action research. Exploratory Research, Descriptive Research, Causal Researches in Education. Plagiarism, Ethics in Research, Problems faced in Educational Research - Qualities of a Researcher.

Unit - II: Major Steps in Research**[12 hrs]****a) Formulation of Research Problems**

Defining a Research Problem - Selection of the Problem, Sources of the Research Problem - Criteria for selecting a problem - Statement of the Problem - Research questions in qualitative and quantitative research - Delimitations of the Problem.

b) Framing of Hypotheses

Hypothesis: Meaning, Purpose and role of Hypotheses, Framing of hypotheses-Classification of hypotheses. Testing of Hypotheses.

c) Sampling

Nature of Sampling - Importance of Sampling - Different Types of Sampling Techniques, Probability, Non probability Sampling; Sampling Design.

d) Preparation of Research Proposal

Role of Related literature on a Research Project, Need and importance of review of related literature., Preparation of Research proposal, Framework of the research proposal and strategies for writing the research proposal.

Unit - III: Research Methods**[10 hrs]**

Quantitative Research - Normative Survey, Descriptive Research, correlation Studies, developmental studies: cross - sectional studies, longitudinal studies, Trend analysis, Analytic and causal - Comparative Studies.

Qualitative Research - Meaning, steps and characteristics - Case Studies, Historical Research-meaning, significance and steps, Primary and secondary sources of information, External and internal criticism of the source, Content Analysis.

Unit - IV: Tools and Techniques

[10 hrs]

Criteria for selection of tools - Factors related to the construction of tools.

Quantitative Research tools - Numerical data analysis, Statistical Application Analysis. Observation (coded and structured form). Interview (rating for responses form). Data managing: Creating, Classifying and Organising data. Surveys (Face-to-Face, Telephone, Online and other Analytical Techniques). Questionnaires. Psychometric test forms (Achievement, Attitude, Aptitude, Interest, Personality tests etc. - tests covering paper-pencil, type and non-interpretative in nature) (Likert, Thurstone forms).

Qualitative Research tools - Interview (interpretative forms), Focus-group discussion/testing, Observation (inquiry and interpretative forms), Case-study, Autobiography, Recording, Interpretative surveys, Self-reporting analysis, Ethnography, ethno-methodology.

Unit - V: Fundamentals of Educational Statistics

[10 hrs]

Nature of Data: Quantitative and Qualitative data, continuous and discrete data primary and secondary data. Measurements scales: Nominal, Ordinal, Interval and ratio scales Organisation and Tabulation of Data - Classification and Frequency Distributions - Graphical Representation - Histogram, Frequency Curve, Frequency Polygon, Ogive, Pie diagram and Overlapping Distribution. Measures of Central Tendency - Mean, Median, Mode - Calculation, Interpretation and Uses. Measures of Variability-Range, Quartile Deviation, Average Deviation, Standard Deviation - Linear Correlation: Its Meaning and Uses – Co-efficient of Correlation - Rank Difference Method, Pearson's Product Moment Method- Calculation, Interpretation and Uses. Further Methods of Correlation: Biserial Correlation – Point biserial Correlation, Tetra choric and Phi Correlation

Practical Oriented Assignment

- Preparation of a Research Proposal. (Compulsory)

Any one of the following

- Development of a suitable tool in Education
- Descriptive Analysis of the mark list of Students

PERSPECTIVES IN TEACHER EDUCATION
Semester – I

PTE

Marks: 100

Objectives:**At the end of the course the students will be able to:**

- examine the nature and objectives of Teacher Education.
- critically examine the growth and development of Teacher Education in our country.
- understand teacher preparation programme at all levels
- discuss the concept and importance of in-service teachers faculty improvement programme.
- critically examine the role and contribution of various regulatory bodies and support institutions for improving quality of Teacher Education.
- reflect on the functions and roles of regulatory bodies in Teacher Education.
- appreciate the innovative practices that are adapted by Teacher Education Institutions.

Unit - I: Teacher Education: Historical Perspectives [10 hrs]

Teacher Education: Concept, Nature, Objectives and Scope - Development of Teacher Education in India - Ancient and Medieval period, Buddhist period, British period, Pre-independence period and post – independence period- New experiments in education and its implications to Teacher Education- life skills education, e-learning, inclusive education

Unit - II: Pre-service Teacher Education: Structure and Components [10 hrs]

The structure of Teacher Education curriculum and its vision in curriculum documents of NCERT (2009) and NCTE (2015) - Pre-service Teacher Education for various levels (Pre-Primary, Primary, Secondary, Higher Secondary) nature and differences. Modes of Pre-service Teacher Education – face-to-face, and distance mode - relative merits and limitations.

Unit - III: In Service Teacher Education: Concept, Planning and Organisation [10 hrs]

Concept and need for professional development of a teacher: Planning in-service Teacher Education Programme – preliminary considerations of purpose, duration, resource requirements, and budget: Designing In-service Teacher Education Programme - Assessment of training needs, formulation of training curriculum, preparation of course material - Organizing and Implementing In-service Teacher Education Programme - arrangement, preparation, facilitating participation, collecting feedback and evaluation. Agencies for In-service Education: Institutional Programmes, S.I.E., D.I.E.T., N.C.T.E., N.C.E.R.T., Human resource center, Extension service Department.

Unit - IV: Agencies of Teacher Education: Role and Functions [12 hrs]

National or Central Level Agencies: UGC, NCERT, NCTE, NUEPA, NAAC, MHRD, National Curriculum Frame Work for Teacher Education (NCFTE).

State Level Agencies: State Board of Teacher Education (SBTE) – Functions of SBTE, University departments of Teacher Education, (UDTE) Functions of University Departments of Teacher Education, SCERT

Unit - V: Teacher Education: Innovative Practices

[8 hrs]

Cooperative and Collaborative Teacher Education-Constructivist and Reflective Teacher Education- Competency based Teacher Education-Systems approach to Teacher Education. ICT integrated Teacher Education,

Practical Oriented Assignment

- Write a report on the following topic:
“Constructivist methods a teacher can adopt in the classroom to enhance a student’s knowledge adding to the curriculum” (compulsory)

Answer any one:

- Write a research report on:
The changes in curriculum and teaching methods in the schools in the last 10 years”
The report has to be based on the views of a minimum of 5 teachers who have an experience of over 10 years.
- Identify, analyse and reflect on the multidimensional nature of the roles of the teacher and the teacher educator.

Curriculum Framework M.Ed. - Second Semester

**PHILOSOPHY OF EDUCATION
SEMESTER - II**

PEN

Marks: 100

Objectives:

At the end of the Semester the students will be able to

- acquire knowledge of the basic concepts of Philosophy of Education, the relationship between Education and Philosophy.
- understand the perspectives of the Eastern Schools of Philosophy.
- understand the different perspectives of the Western Schools of Philosophy.
- understand and appreciate the contribution made to Education by Eastern and Western thinkers.
- acquaint with the knowledge of the Contemporary Schools of Philosophy.

Unit - I: Introduction to Philosophy of Education.

[10 hrs]

Philosophy: Meaning, concept, scope, nature, Branches of Philosophy: Metaphysics, Epistemology, Axiology and Education. Education: Meaning, definition and nature. Relationship between Philosophy and Education. Need and importance Philosophy of Education. Scope and Functions of Philosophy of Education. Significance of Philosophy of Education with respect to different aspects such as aims, methods, curriculum, discipline and the role of the teacher.

Unit - II: Perspectives of Philosophy in Education

[10 hrs]

Indian Schools of Philosophy: Heferodox - Charvaka, Budhism, Jainism, Orthodox - Sankhya, Yoga, Nyaya, Vaisesika, Mimamsa, Vedanta and their educational implications - Islamic Philosophy of Education and its educational implications - Christian Philosophy of Education and its educational implications.

Unit - III: Perspectives of Western Philosophy of Education

[10 hrs]

Idealism, Naturalism, Pragmatism, Realism and their educational implications with special reference to the concept of knowledge, reality, values and their educational implications with respect to aims, methods, curriculum, discipline and the role of the teacher.

UNIT - IV: Contribution of Indian and Western Thinkers to Education

[10 hrs]

Western Philosophers: Socrates, Plato, Aristotle, St. Thomas Aquinas, St. Augustine, John Dewey, Maria Montessori, Froebel and Ivan Illich - **Indian** Philosophers: Gandhi, Tagore, Sri Aurobindo, Vivekananda, J. Krishnamoorthi and Dr. Radhakrishnan.

Unit - V: Contemporary Schools of Philosophy

[10 hrs]

Logical Positivism, Humanism, Existentialism, Dialectical Materialism, Essentialism, Eclecticism, Feminism and their educational implications with respect to aims, methods, curriculum, discipline and the role of the teacher.

Tasks and Assignments:

- Small group Discussion on the importance of the knowledge of Philosophical perspectives for the teacher educator with suitable examples and prepare a report. (Compulsory)

Attempt any one of the following:

- Express your thoughts and reflections on Western Philosophical schools and their relevance to present day Indian Education.
- Critically review a book written by an Indian Educationist.

**SOCIOLOGY OF EDUCATION
SEMESTER - II**

SEN

Marks: 100

Objectives:

At the end of the semester the students will be able to

- develop understanding of Educational Sociology
- understand Social Stratification, social organization, social mobility and their impact on Education.
- understand the relation between Education and social change
- understand Multicultural Education
- examine education from different sociological perspectives and Theoretical frameworks

Unit - I: Sociology and Education

[10 hrs]

Educational Sociology: concept, nature and scope - Relationship between Sociology and Education with special reference to aims of education, methods and curriculum. Concept and nature of Sociology of Education, Difference between Sociology of Education and Educational Sociology; Social agencies of Education: home, school, community, religion and state.

Unit - II: Social Stratification and Social Mobility

[10 hrs]

Education and Social Stratification, Theories of Social Stratification - Functionalist and Conflict Theory. Social Mobility - Role of Education in Social Mobility, Social organization: meaning, nature and Characteristics, Social groups: Meaning, significance and types. Inter group relationships.

Unit - III: Social - change and Education

[10 hrs]

The Individual and Society, Mutual Needs of the Individual and Society, Social change and Education. Constraints of social change in India, Education as a Construct of Social change, Meaning of social change, factors influencing social change, (with special reference to India), Role of education in promoting desired social changes. Social control and Education, Symbolic Interactionism.

Unit - IV: Multi - cultural Education

[10 hrs]

Multi-cultural education: meaning, concept, need and scope, principles of teaching and learning in multi-cultural society. Dimensions of Multicultural Education (Content Integration, Knowledge Construction, Equity Pedagogy, Prejudice Reduction, School Culture), Approaches to Multi Cultural Education (Culturally Different, Human Relation, Single Group Study, Multicultural Education, Social Reconstructionist), Re-conciliation of Traditional and Technological culture. Role of education in the multi- cultural context.

Unit - V: Sociological Developmental Perspectives

[10 hrs]

Social theorists: Auguste comte, Emile Durkheim, Karl Marx, Max Weber, Contemporary Sociological Perspectives: Conflict Perspectives, Social Action Perspectives – Implications in Education.

Tasks and Assignments:

- Local Community survey – {Literacy rate among boys and girls – Access, Continuity, Dropout, entry, pass percentage, child marriages, child labour, etc.} and prepare a report. (Compulsory)

Attempt any one of the following

- Study the diversities existing in the community and describe the root causes for the same.
- Critically analyse a Sociologist of your choice and present your views.

CURRICULUM DEVELOPMENT AND INSTRUCTIONAL TECHNOLOGY
SEMESTER - II

CDT

Marks: 100

Objectives:

At the end of the semester the students teacher will able to

- understand the concept and foundations of curriculum.
- identify the types of curriculum designing.
- describe the principles, process and models for curriculum development.
- know the nature and scope of instructional technology.
- acquaint with the approaches to instructional technology and teleconferencing.
- effectively use technology in the teaching learning process.
- design the instruction and mode of transaction based on technology.
- incorporate technology into the curriculum.

Unit - I: Foundations of Curriculum**[10 hrs]**

Curriculum - meaning, definition and need for Curriculum- Curriculum and syllabus - Curriculum and Instruction - Foundations of Curriculum - Philosophical, Sociological and Psychological foundations of Curriculum- Humanistic curriculum: characteristics, purpose, role of the teacher, psychological basis of humanistic curriculum -Domains of Curriculum: objectives, content, learning experiences.

Unit - II: Curriculum Process**[10 hrs]**

Curriculum Planning - Phases of Curriculum Development - Need Analysis - Objectives - Content Organisation. Curriculum Design - Horizontal, Vertical - Sources of Curriculum Design - Types of Curriculum design - Subject, Student, Problem Centered

Unit - III: Curriculum Development Models and Curriculum Evaluation**[10 hrs]**

Technical / Scientific Models: Ralph. w. Tyler - Hilda Taba Hankin's Developmental model. Non - Scientific Models; Gerald Weinstein and Fantini Model - Corl Rogers Model - Dider Noye Model. Evaluation of Curriculum - Robert Stake's congruence - contingency model - CIPP (Context, Input, Process and Product) model - Tylerian objectives based model.

Unit - IV: Instructional Technology**[10 hrs]**

Concept and scope of Instructional Technology - Difference between Technology of Education and Technology in Education - Approaches to Instructional Technology: Hardware Approach, Software Approach and System Approach - Radio and Television Educational Programmes - Teleconferencing and its types - Recent trends in Instructional Technology: Flipped Classroom - Virtual and Remote Laboratories - 3D Printing - Massive Open Online Course (MOOC) - Learning Management System - Cloud Computing - Blended Learning.

Unit - V: Integrating Technology in Curriculum Transaction**[10 hrs]**

Transactional usage of Instructional Technology: Integrated, Complementary, Supplementary, Standalone - Technology Integrated Instructional Design - Instructional technologies used in

Class Room - Use of Documentaries, Animation Films and CCTV in Instruction and Training - Technologies used in Open and Online Modes of Education.

Tasks and Assignments

- Preparation of a curriculum in Yoga/ Environmental education/ Value education

Attempt any one of the following

- Prepare a report on National Curriculum Frame work 2009.
- Visit a school that use any latest technology and collect details.

**PSYCHOLOGY OF LEARNING AND DEVELOPMENT
SEMESTER - II**

PLD

Marks: 100

Objectives:

At the end of this course the students will be able to

- understand the basic concepts and scope of Educational Psychology.
- appreciate the contribution of various schools of Psychology in Education.
- understand the social, moral and emotional development of learners.
- acquaint with the perceptual process, attention, concept formation and thinking.
- apply the cognitive processes to enhance teaching learning process.
- comprehend the theories of learning and their utility in the learning activity.
- apply the knowledge of personality theories for understanding the individuals.
- apply the concept of adjustment and maladjustment in the teaching learning process to suit individual needs.

Unit - I: Nature and Scope of Educational Psychology [8 hrs]

Educational Psychology: Nature and Scope of Educational Psychology - Relevance of Educational Psychology in Teaching and Learning process- Major schools of Psychology and their contribution to education-Structuralism, Functionalism, Behaviorism, Psycho-dynamism, Humanism - Methods of study in psychology - Introspection/Self-Reporting, Experimental, Observation, Survey, Case study and Interview.

Unit - II: Social, Emotional and Moral Development [7 hrs]

Social Development: Development of self -concept, Development of Group Consciousness - Factors influencing Social Development-Erikson's Psychosocial stages of development - Emotional Development: Positive and Negative Emotions, Physiology of Emotion, Theories of Emotion (The James - Lange Theory, The Cannon-Bard Theory, Schachter-Singer Theory) - Significance of Emotional Intelligence-Moral Development: Theories of Moral Development- Piaget and Kohlberg

Unit - III: Cognitive Development [15 hrs]

Perception - sensation and perception, perceptual errors - Gestalt's theory of perception - Perception and Learning-Attention - Kinds of attention, Attention span, Determinants of attention - Automatic processing - Automaticity and Reading.

Cognitive Development-Piaget-Concept Formation-Bruner's theory on Concept Formation

Thinking and Language: Concept of thinking-The styles of thinking - Reasoning - Critical thinking - Lateral Thinking - Role of mental images in the thought process -Meta Cognition - Role of language in the thought process - Factors affecting language development - Development of language - Views of Noam Chomsky and Vygotsky.

Memory: Memory Process -Types of Memory-Memory models.

Unit - IV: Learning Theories

[10 hrs]

Nature and importance of learning - Factors influencing learning - Theories of Learning - Classical conditioning(Pavlov), Operant conditioning (Skinner), Hierarchy of Learning (Gagne), Information processing (Donald Norman), Discovery theory of Learning, Meaningful learning theory, Lewin's field theory, Social learning theory - Albert Bundura - Constructivism and learning-Educational implications of above theories of learning.

Unit - V: Personality and Adjustment

[10 hrs]

Nature and Meaning of Personality- Determinants of Personality – Theories of Personality - Trait Theory-Cattell , Psychoanalytic theory- Freud – Neo-psychoanalytic theories- Carl Jung, Adler, Karen Horney, Erich Fromm–Humanistic theory- Carl Rogers , Abraham Maslow - Adjustment and Maladjustment-Concept and understanding.

Tasks and Assignments

- Write your views as a prospective teacher educator on how you would combat social phobia in your student teachers.
- Prepare a flowchart of the thought process of the people classified under the eight stages of Erikson's Psycho - Social Development based on their reaction to the following question: "What is your opinion on God?"
- Elucidate on the parallels a teacher can draw from the learning environments of a student other than a class room in school or college.
(For example, a student learns from their peer students about various methods for learning. The parallel you can draw from here is how you can incorporate this student-student interaction in your classroom.)

Curriculum Framework M.Ed. - Third Semester

**STRUCTURE STATUS AND ISSUES IN SECONDARY EDUCATION
SEMESTER - III**

SSE

Marks: 100

Objectives:

At the end of the semester the student will be able to

- understand the nature - scope and systems of secondary education.
- examine the status of development of secondary education.
- understand different forms and issues of inequality in education.
- identify the indicators and standards of quality in education
- appreciate the role of Teacher Education.

UNIT - I: Structure and Status of Secondary Education [10 hrs]

Nature and Scope - Status of Secondary and Education in India - Central Board of Secondary Education (CBSE), Secondary School Certificate Board (SSC) State Board, Indian Certificate of Secondary Education Delhi Board (ICSE) and - Schooling Systems - International Baccalaureate (IB), National Open Schools, Special-Needs Schools - Organizational Structure of school in India, Types of School Education Aided-unaided, Private, International.

UNIT - II: Commissions and Committees on Secondary Education [10 hrs]

Constitutional Provisions related to Education - Secondary Education Commission (1952 - 1953); National Education Commission (1964 - 1966); Ishwar Bhai Patel Committee (1977); Adishiah Committee (1978); National Policy on Education (1986); and Programme of Action (1992) and SSA.

UNIT - III: Policies and Programmes of Secondary Education. [10 hrs]

Agency of Policy Making - NCERT, SCERT - NUEPA Policies and schemes related to Secondary and Higher Secondary Education – Draft on the National Policy of Education (1992), National Scheme of Incentives to Girls for Secondary Education (2008) - National Programmes: Rashtriya Madhyamik Shiksha Abhiyan (RMSA) - National Mission for Secondary Education - Inclusive Education for Disabled at Secondary Stage - The Adolescence Education Programme (AEP).

UNIT - IV: Issues and Challenges of Secondary Education. [10 hrs]

Problems and challenges related to universalisation of secondary education - Achievement of Equalization of Educational opportunities - Forms of Inequality - Gender Inequality - Urban Rural and Tribal Schools - Public and private schools - Issues of Quality in Secondary and senior secondary education - Classroom problems, discipline, under achievement, lack of motivation - Intervention in relation to Access, Retention, Enrolment and Dropout.

UNIT - V: Teacher Education in India at Secondary Level. [10 hrs]

Development of Teacher Education in India at Secondary Level - Recommendations of Various Commissions Concerning Teacher Education - Impact of NPE 1986 and POA on Teacher Education - Role and Functions of IASE and CTE - Pre-Service and In-Service Teacher Education.

Tasks and Assignment

- Prepare a profile of a good aided and a private school of your locality.
- Bring out the problems of vocational Education course
- Study the difference between the different boards of Education.

**ADVANCED EDUCATIONAL RESEARCH AND STATISTICS
SEMESTER - III**

AES

Marks: 100

Objectives:

The student teacher at the end of the course will be able to:

- Get familiarized with the Experimental Research designs
- Develop competency in presentation of research data, statistical analysis and interpretation
- Differentiate parametric and non-parametric tests.
- Empower students in computer and software application skills for data analysis.
- Develop competencies in preparing a research report.

Unit - I: Experimental Research designs**[10 hrs]**

Experimental Research designs: Single - Group Pre-test-Post-test Design, Pre-test-Post-test Control-Group Design, Post-test only Control - Group Design, Quasi-Experimental Designs: Non - equivalent Comparison Group Design, Time-Series Design - Internal and external validity of research tools. Expost facto research - design, Simple cases of Casual-Comparative and Co relational research.

Unit - II: Inferential Statistics**[10 hrs]**

Concept of parameter and statistics- Estimation of a parameter - Elementary ideas of probability, Normal Distribution Curve-properties, conditions and characteristics of normal distribution - Skewness and kurtosis. Characteristics of Normal Distribution Curve: Importance and applications of Normal Curve. Sampling, sampling techniques, sampling error and standard error. Hypotheses: types of hypotheses, testing of hypotheses, errors in hypotheses testing, levels of significance and degrees of freedom. Testing the significance of difference between the groups for independent and correlated samples

Unit - III: Parametric and Non Parametric Statistics**[10 hrs]**

Parametric tests: t - test, Analysis of variance and Co - variance (ANOVA and ANCOVA), Regression Analysis - concept, assumptions, significance, interpretation and applications. Nonparametric statistics: Chi-square, Mann-Whitney test, Mean test, Rank test and sign test.

Unit - IV: Data Analysis and Interpretation**[10 hrs]**

Coding of data and Data entry in various computer software, Microsoft Excel/SPSS Data-Analysis and interpretation. Use of Computer for Data Analysis- Knowledge of Software for Statistical Analysis such as EXCEL, SPSS. Applications of EXCEL, SPSS, etc for data organization, presentations and interpretation of results. **(Note: only for practical purposes).**

Unit - V: Report Writing**[10 hrs]**

Preparation of research report: Significance of research report, Format, style, content and chapterization, Bibliography Application of style manuals APA (sixth edition), appendices, structure (Preliminary, Main body and reference section), Presentation of research report.

Tasks and Assignment:

- Select a Research problem, formulate hypotheses and describe appropriate statistical techniques for testing hypothesis.
- Prepare a critical assessment of sample used in a research.
- Collect the result of two classes and apply mean and SD of this data and prepare a comparative report.

**GUIDANCE AND COUNSELLING
SEMESTER - III**

GCG

Marks: 100

Objectives:**At the end of course the students will be able to:**

- understand the meaning, nature, principles and scope of guidance
- understand the need of guidance for the special children.
- develop acquaintance with various types of guidance and techniques of group guidance
- recognize the role of guidance in attaining the goals of education and appreciate the need for guidance
- understand the resources required and their optimum use in managing a school guidance programme
- acquire knowledge about concept and importance of Vocational guidance
- understand the meaning, nature and scope of counselling, analyze the relationship between guidance and counselling
- recognize the different areas of counselling and become acquainted with the skills and qualities of an effective counsellor.
- understand the various stages involved in the process of counselling

UNIT - I: Nature and Scope of Guidance**[8 hrs]**

Meaning, Need and significance of Guidance. Principles of Guidance - Physiological, Sociological and Educational. Scope of Guidance, Objectives of Guidance, Functions of Guidance Services.

UNIT - II: Educational and Vocational Guidance**[14 hrs]**

Types of guidance; individual and group guidance, advantages of group guidance Principles of Educational Guidance. Guidance services: orientation, information, counselling, placement, Follow-up, research and evaluation. School Guidance Committee: constitution, roles and functions, Placement services. Research and Evaluation services Place of Guidance in school curriculum-need Role of Principal and teachers in school Guidance programmes. Vocational guidance Concept and importance of Vocational Guidance, Process of Vocational Guidance: - Fantasy Stage, tentative Stage and realistic Stage. Group guidance techniques: class talk, career talk, orientation talk, group discussion, career corner, career conference, bulletin board and role play.

UNIT - III: Guidance to Special Children**[8 hrs]**

Guidance for special learners - Gifted, Creative, Slow learners and Learners with difficulty for learning. Psychological Guidance for Problematic students - Backward children, Dull or Deficient Children, Delinquent Children and obstinate children. Enrichment Programme for the gifted, slow learner and Exceptional Children.

UNIT - IV: Understanding Counselling

[12 hrs]

A. Meaning and nature of Counselling, Scope of Counselling, Objectives of Counselling: resolution of problems, modification of behaviour, promotion of mental health, Relationship between guidance and counselling, Skills and qualities of an effective counsellor, Professional ethics of a counselor, Teacher as a Counsellor.

B. Approaches of Counselling

Approaches in Counselling: Meaning, characteristics, steps, advantages and Limitations of Directive - Non directive - Eclectic Counselling and Group Counselling; Behavioural approach, Existential approach and cognitive approach.

UNIT - V: Stages and Skills of Counselling

[8 hrs]

Rapport Building - Goal Setting - Assessment and Diagnosing - Selection of intervention strategy - Planning and conducting sessions - Termination.- Developing counselling goals - Functions of counselling goals - Obstacles in developing specific goals - Skills associated with goal setting. Peer counselling: Its concept and the relevance to the Indian situation. Steps and skills in group counselling process.

Tasks and Assignment (Any Two)

- List out any two Guidance service activities that need to be conducted at the higher secondary level.
- Conduct a survey of the problems that are most prevalent among students in your class, which need immediate attention of a guidance counsellor and prepare a brief report.
- Identify the problems faced by the students that can be solved through peer counselling approach.

**EDUCATION FOR THE DIFFERENTLY – ABLED LEARNERS
SEMESTER - III**

EDA

Marks: 100

Objectives**At the end of this course, the student will be able to**

- identify the differently - abled learners.
- deconstruct the prevailing myths about disability.
- develop critical understanding of the recommendations of various acts towards education for disabled.
- acquire adequate knowledge about the concept and nature of varied categories of disabled children.
- familiarize with various aids and appliances for addressing special children's specific learning needs.
- become aware of resources in the community which can be utilized in the teaching process.
- gain awareness of the schemes, concessions and facilities made available for the children with diverse needs.
- provide / arrange for necessary guidance and vocational training.

UNIT - I: Conceptual Background**[10 hrs]**

Concept of differently - abled learners; Common terms used for differently - abled; Categories of differently - abled children; Myths and realities regarding differently - abled; Educational Acts: Rehabilitation Council of India Act (1992), The Persons with Disabilities Act (1995), National Trust Act (1999), National Policy for Persons with Disabilities (2006).

UNIT - II: Concept and Nature of Physical Disabilities**[10 hrs]**

Visual Impairment: Categories, Identification, Characteristics, Causes, Prevention, Intervention programmes, Educational programs, Plus curriculum.

Hearing Impairment: Identification, Types, Characteristics, Causes, Prevention, Communication approaches, Educational programmes.

Locomotor Disability: Identification, Types, Characteristics, Causes, Prevention, Intervention programs, Educational programmes, Barrier free environment.

Cerebral Palsy: Types, Characteristics, Causes, Educational Programmes.

UNIT - III: Concept and Nature of Intellectual Impairment**[10 hrs]**

Mental Retardation: Definition, Identification, Causes, Characteristics, Prevention, Classification, Educational programmes, Enrichment Programmes.

Mental Illness: Types, Difference between Mental Retardation and Mental Illness, Intervention programs, Educational programmes.

Attention Deficit Hyperactivity Disorder (ADHD): Symptoms, Associative disorders, Causes, Diagnosis, Educational strategies.

UNIT - IV: Concept and Nature of Neurological Impairment [10 hrs]

Learning Disability: Definition, Types, Identification, Causes, Characteristics, Prevention, Intervention programmes, Educational programmes.

Autism Spectrum Disorder: Definition, Types, Identification, Causes, Characteristics, Other associative disorders, Prevention, Intervention programmes, Educational programmes.

UNIT - V: Support Services [10 hrs]

Environmental Modifications; Use of Assistive Technology for differently - abled learners; Government Schemes, Facilities, Educational Concessions for the differently - abled; Vocational Training: Sheltered Workshop, Transitory Employment, Self Employment, Extended Employment, Community Based Rehabilitation.

Tasks and Assignments (Any Two)

- Conduct an individual case study of a differently abled child and produce a report.
- Drama/Role Play on the teaching strategies for any disability.
- Prepare an album on the various technologies for educating the differently abled children.

**ADULT EDUCATION
SEMESTER - III**

AEN

Marks: 100

Objectives:

At the end of the course the students will be able to

- differentiate formal, informal and non-formal education
- recognize factors influencing adult learning.
- acquaint with the different methods of teaching adults
- understand various programmes on Adult Education
- identify recent trends in Adult Education

Unit - I: Introduction

[8 hrs]

Concept, importance & objectives-Distinction between Formal and non-formal education - Education for all with special reference to Adult Education.

Unit - II: Adult Psychology and Learning.

[10 hrs]

Psychology of adult learners - Adult learning - factors facilitating adult learning
Methods of motivating adult for learning - Learning - factors influencing adult learning - Learning Strategies: Guided learning, Inter - learning and self - directed learning - Challenges faced by adult learners and the counseling support.

Unit - III: Methods of Teaching Adults

[12 hrs]

Methods of adult education - lecture, workshop, seminar, symposium, discussion, demonstration, dramatization and role-play - Traditional Literacy and functional literacy - Different approaches to providing literacy - mass approach, selective approach and campaign approach - Role of Mass Media (Electronic & Print)

Unit - IV: Adult Education Programmes

[12 hrs]

Various programmes of Adult Education in India with special reference to: National Adult Education Programme (NAEP), National Policy on Education (NPE), Post Literacy Campaign (PLC), Total Literacy Campaign (TLC), Continuing Education Programme (CEP) - Policy Planning, Administration and Management of Adult Education / Continuous Education / Life Long Education - Problems and Challenges of Adult Education / Continuous Education / Life Long Education in India.

Unit - V: Recent Trends in Adult Education

[8 hrs]

National Literacy Mission (NLM): Structure, role and function, operational network and supporting agencies and bodies such as State Resource Centers (SRC), DIET, National Institute of Adult Education (NIAE), Directorate of Adult Education- Open Schooling and Distance Education

Tasks and Assignments

- As an adult educator, what challenges do you foresee in dealing with adults with learning disabilities
- Write a report on:
“The need to emphasize adult education”. Conclude the report by elucidating on methods that can be implemented to promote adult education.
- In about 500 words, describe the scenario of an adult education classroom. Touch upon the various factors including the ambience of the classroom, the mindset of the students, how a teacher might go about teaching and so on.

CURRICULUM FRAMEWORK M.Ed. – FOURTH SEMESTER

CURRICULUM PEDAGOGY AND ASSESSMENT IN SECONDARY EDUCATION
SEMESTER - IV

CPA

Marks: 100

Objectives:

At the end of the semester the student will be able to

- understand the foundations of curriculum planning.
- get acquainted with the models and process of curriculum design.
- reflect on various trends and theories of curriculum development.
- appreciate the need for curriculum assessment.
- develop competencies to design and assessment curriculum.

UNIT - I: Nature and Principles of Curriculum

[8 hrs]

Concept and Meaning - Components of Curriculum - Objectives, content, transaction mode and assessment at the secondary level - Philosophical and Ideological bases of Curriculum - Principles of integration

UNIT - II: Approaches to Curriculum

[8 hrs]

Core Curriculum - subject centered - Learner centered - Community centered - Curriculum frame works of School Education and Teacher Education. Social re-constructionist Curriculum - Purpose and role of the teacher.

UNIT - III: Pedagogic Practices in Secondary Education

[10 hrs]

Revised Bloom's Taxonomy (Anderson) for Teaching and Learning - Content Analysis of topics at Secondary Level - Teaching models - individualised instruction - Cooperative Learning - ICT integrated pedagogy - Online Learning - Scope and Limitations - Changing roles and responsibilities of teachers.

UNIT - IV: Curriculum and assessment in Secondary Education

[12 hrs]

Principles of School Curriculum Development at Secondary and Senior Secondary Level, CCE in Teacher Education - Formative and summative assessment: norm referenced and criterion reference assessment - Assessment of school experience / internship programmes. Assessment of teaching proficiency: criterion, tools and techniques - Organization and regulation of internal assessment: Preparation of guidelines and scheme of internal assessment. Portfolio assessment.

UNIT - V: Models of Curriculum Evaluation

[12 hrs]

Tyler's, Stakes' Model, Scriven's, Krikpatrick's and CIPP (Context, Input, Process, Product) Models - Factors Influencing the Effectiveness of Curriculum Transaction and Implementation Student, Teachers and Instructional Environment - Purpose and Planning for Evaluating the Curriculum and Curriculum Materials, Conducting Programme evaluation and Utilizing evaluation Results for Curriculum Improvement.

Tasks and Assignment

- Prepare a on any one national curriculum Frame work 2005 (NCERT) NPE National Policy on Education 1992 National Curriculum Frame Work of Teacher Education 2009 or 2014
- Identify various criteria to evaluate a text book based on the criteria evaluate a text book of your choice (Secondary Level)
- Design a instructional plan for a unit in a subject at the secondary level.

**ADVANCED EDUCATIONAL TECHNOLOGY
SEMESTER - IV**

AET

Marks: 100

Objectives:

The student teacher at the end of the course will be able to

- understand the meaning, nature and concept, definition and Scope of educational technology
- understand the meaning, nature and importance of various resources of educational technology
- Understand the need and importance of researches in educational technology
- get acquainted with emerging trends in educational technology
- understand the problems and challenges in educational technology

Unit - I: Educational Technology**[10 hrs]**

Educational Technology: Meaning, Definition, Scope and Significance. Meaning: Technology in Education and Technology of Education. Aims and Objectives of Educational technology - Educational Technology and Instructional Technology, Role of a teacher in Educational Technology. Evolution of educational technology, major factors that influence the development of educational technology, impact of educational technology on Indian education.

Unit - II: Resources in Educational Technology**[10 hrs]**

Concept, need and importance of learning resources, non-digital and digital learning resources, resource centres: meaning, objectives, functions and organisation. Resource centres for Educational Technology. CIET, UGC, AVRC and EMRC role and their functions for the improvement of teaching - learning.

Unit - III: Research in Educational Technology**[10 hrs]**

Relationship between research in education and educational technology, application of research in educational technology, areas of research in educational technology, relevance and feasibility of research in educational technology, research on media, current trends of research in educational technology, uses of educational technology in the classroom research, role of computers in educational research

Unit - IV: Trends in Educational Technology**[10 hrs]**

E-learning: concept, nature and characteristics, modes and styles, promotion and arrangement for e-learning in our educational institutions, Elements of e-learning; e-content, e-book, e-tutoring, e-journal, e-paper and e-library -advantages and disadvantages of e-learning, - Virtual Classroom and Virtual University, advantages of virtual classroom, drawbacks and limitations of virtual classroom.

Unit - V: Challenges in Educational Technology**[10 hrs]**

Problems and uses of technology in education, attitudinal problems and challenges of adapting to fast emerging technologies in education, challenges of faculty empowerment in technology

of teaching, problems of new technology, ethical issues involved in the application of educational technology.

Tasks and Assignments

- Prepare e-content on any topic of your choice.
- Develop a technology based study material for school students.
- Critically Review an Educational Programme presented through T.V., CDs, Videocassettes, Radio
